Look At These *LOW* Wholesale Prices!

	<i>Per 1000</i>
BALSAM FIR	
4-yr. Transplants (2-2) 4-7 in.	\$60.00
EUROPEAN LARCH	
3-yr. Transplants (2-1) 6-12 in.	30.00
BANKS PINE	
3-yr. Transplants (2-1) 5-10 in.	30.00
MUGHO PINE	
3-yr. Transplants (2-1) 2-4 in.	35.00

TRANSPLANTING INFORMATION

The figures 2-1, 2-2, shown above, represent the number of years the trees have been in seed beds, number of years in transplant beds, and the number of times transplanted. The first figure indicates the number of years the trees remained in the seed bed before being transplanted. The second figure indicates the number of years the trees remained in the transplant bed. The total of the figures indicates the age of the tree, and each dash represents one transplanting. The total of the figures add up to the age of the tree. Thus, a 2-2 Balsam Fir is a 4-year old tree which remained in the seed bed two years, was transplanted, and remained in the transplant bed two years.

	<i>Per 1000</i>
SCOTCH PINE	
3-yr. Transplants (2-1) 4-8 in.	45.00

SHIPPING WEIGHTS

The following shipping weights are approximate due to the different varieties. Weight per thousand trees, including packing material and crates, will average as follows: 2-year seedlings, 7 lbs.; 3-year seedlings, 15 lbs.; 3-year transplants, 28 lbs.; 4-year transplants, 80 lbs.; 5-year transplants, 200 lbs.; 6-year transplants, 200 to 300 lbs. All trees shipped by express unless otherwise specified. Trees shipped by freight are not covered by our Guarantee.

TERMS

Cash with order, or one half cash with order, balance C.O.D. All prices F.O.B. Fryeburg, Maine, net; no discounts. 250 trees of any one kind and size at the 1000 rate. For less than 250 of one kind ask for retail price list. **NO EXTRA CHARGE FOR BOXES OR PACKING.**

PLEASE GIVE SECOND CHOICE ON ALL ORDERS

More than twenty years of specializing in Evergreens, the most fertile of Maine soil, plus expert personnel assure you of only the best of Trees when you order from this Price List.

We try to take a little bit of extra care in the planting, handling, and shipping of our Trees — to see that they reach you in fresh-dug condition, full of vitality and life.

Our transplanting methods developed over the years have produced strong, fibrous root systems which are ever-ready to reach deep down in the earth and establish themselves quickly for vigorous, steady growth. Experience has proven to us and thousands of customers that our Western Maine Evergreens get a head start, that they live and survive under almost any growing conditions with a minimum amount of care.

Our prices are unusually *LOW* because of our tremendous volume. But low price alone wouldn't mean anything unless the trees live. Our trees are Guaranteed to Live . . . we, not you, take the risk. Be sure to read the Guarantee on the back page. Place your order now for trees that will bring you good re-sale prices.

What the Folks Who Plant Them Say About Our Trees:

RECOMMENDS US TO EVERYONE

"I want to say that your trees have done wonderfully and that I stand ready to recommend you and your business methods to anyone. It is a pleasure to do business with you and as long as I see those trees growing I shall remember the Western Maine Nursery. Thank you for the service."

C. M., Utica, N. Y.

HAS GOOD SUCCESS

"Some years ago you sold me five hundred small evergreens. I need some more trees now, and would like to duplicate the success I've had with those I received from you at that time."

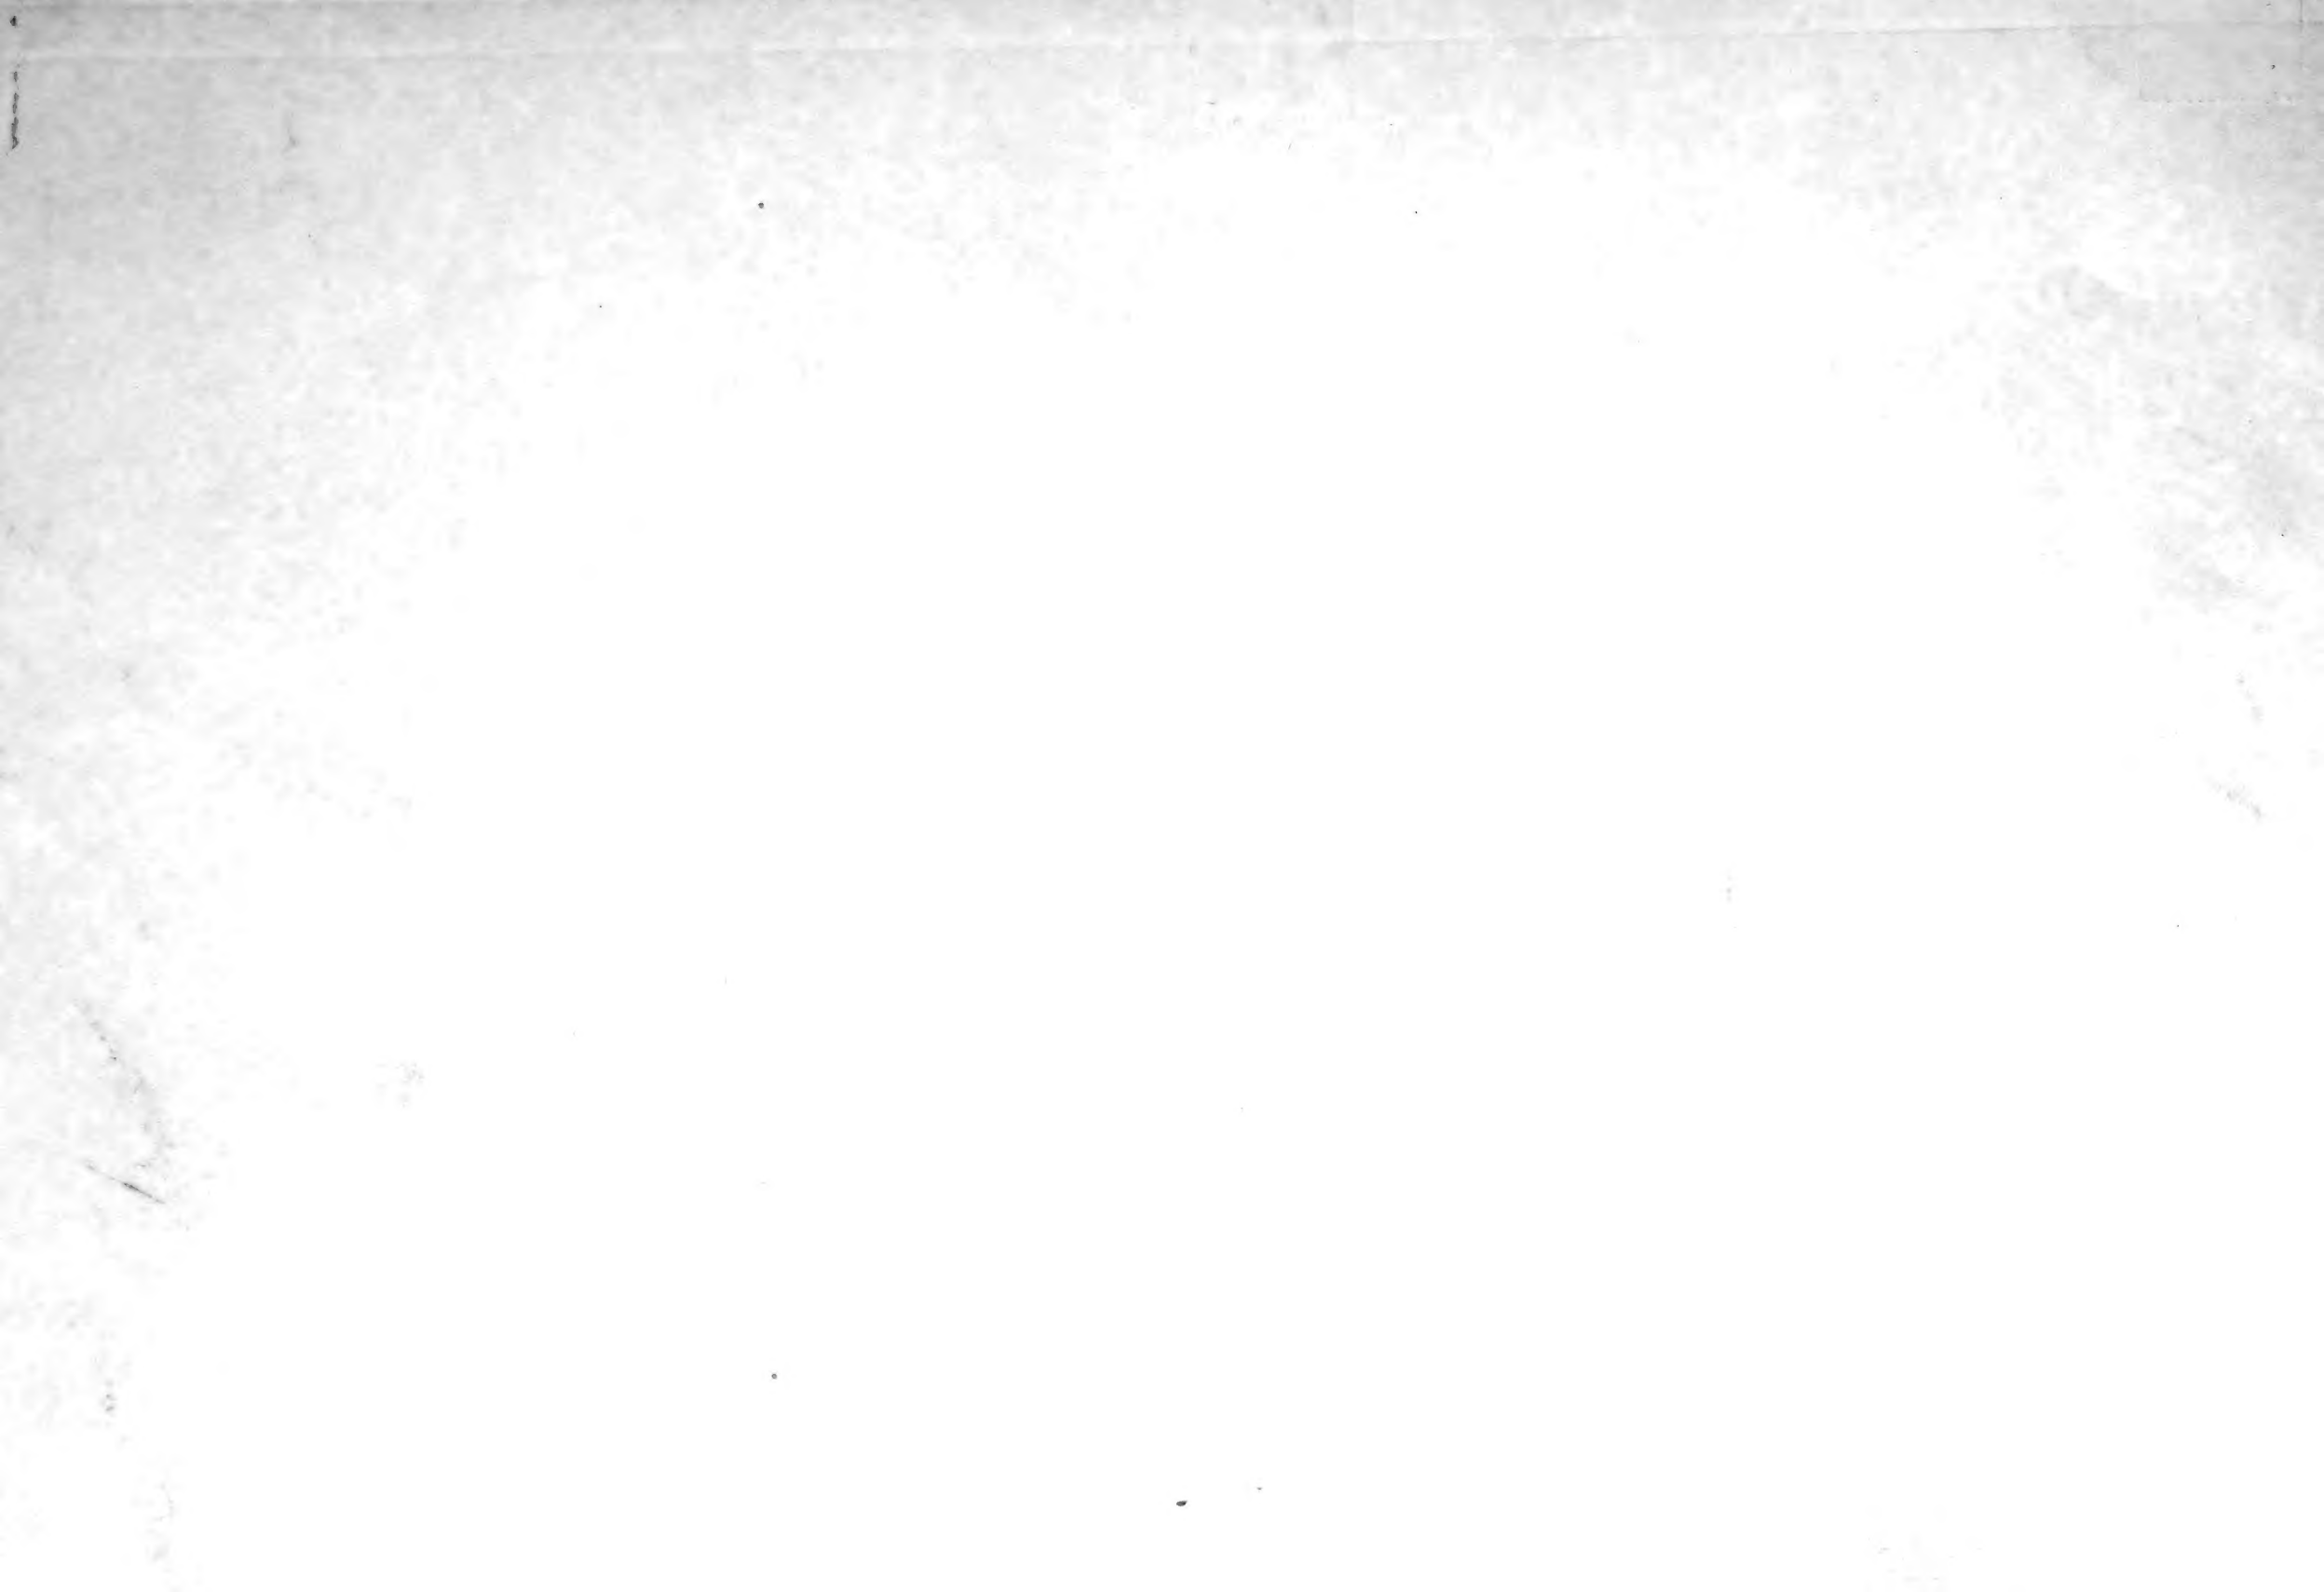

T. J. P., West Hartford, Conn.

BUILT A GOOD BUSINESS

"We have purchased stock only from you because we feel you have given us top quality at reasonable price. We now have the reputation of the biggest growers of Christmas Trees in this section and have built up a very substantial trade, both wholesale and retail. All of our better trees are Maine grown."

E. T. F., Clintonville, Conn.

MAKE GOOD MONEY WITH

Christmas Trees

With practically no cultivation and little labor and money, you can have an extra income at Christmastime from a few hundred dollars to several thousand dollars!

Christmas tree farming can be a most profitable enterprise. You plant the small Evergreens, and a few short years later you begin to harvest. Then you will have a yearly crop as long thereafter as you plant new trees in the vacancies left by harvesting.

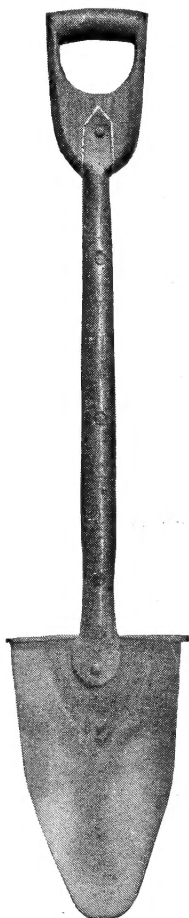

The most attractive feature about raising Christmas Trees is that they can be grown on waste land . . . land that would otherwise be used to no worthwhile purpose. On as little as an acre of land you can grow from 1000 to 3000 trees. You can count on the demand as long as children believe in Santa Claus!

Our FREE Christmas Tree Bulletin tells you more about this profitable enterprise. Send for your copy TODAY.

SPECIAL PLANTING TOOL Only \$6.75

Here is a planting tool specifically designed for planting Trees. The combination of strength, proper weight and good balance gives this tool the right "feel" for all planting jobs. With it any able man can plant 1000 trees a day. Spade is easily inserted into ground, pushed forward, and tree put into the newly made hole. Shipped express collect, unless otherwise specified.

The Finest *EVERGREENS*

Come from Western Maine!

Guarantee...

We guarantee that 90% of the Trees that you buy from this Price List will live. If you will notify us before October 1, 1950 of the number over 10% which do not live, replacement will be made to equal 90% of the number originally purchased. If we are unable to furnish replacements in the exact size originally purchased, we will furnish them in the nearest size and variety. Shipment will be made by express collect. Trees shipped by freight or truck cannot be guaranteed.

Harry Eastman

Order NOW for Spring Planting

The trees you will want this Spring must be ordered now. Due to severe drouth conditions the past year, some of our trees will not be available in sufficiently large quantities. For this reason and for the fact that advance orders usually clean us out of some varieties, we suggest prompt mailing of your order. We begin to ship our trees from Fryeburg as soon as the frost leaves the ground up here, which is usually around the middle of April.
